

Dedicated Access ADSL

CRITICAL INFORMATION SUMMARY INFORMATION ABOUT THE SERVICE

SERVICE DESCRIPTION

The Zone 1, 2 & 3 Dedicated Access plan is an internet service ordered over the copper network either using our own infrastructure or infrastructure supplied to us by our wholesale partners. This service is designed to provide Voice only Data channels in support of Commander's IP Voice services. To setup this service you need to Transfer an existing PSTN line or order a new PSTN line with Commander. The Broadband service is bundled over this line. The MAF displayed is the Total bundle price. If a New phone line is required there will be an additional Setup fee of \$299. Some installations require additional cabling from the MDF to the first point (socket) in your premises. If you do not already have cabling in place an additional fee of \$299 applies.

MINIMUM CONTRACT TERM

36 Month

KEY DETAILS

The Zone 1, 2 & 3 Dedicated Access includes ADSL1 or ADSL2+ . Unlimited Voice data included.

*Speeds quoted are between the Network Termination Unit at your premises to our Point of Presence. Actual speeds within your premises will be affected by various internal and external factors such as number of end-users, hardware/software, source of traffic, cable distance and cable quality.

HARDWARE

A Business Gateway modem is included - not optional. \$19.95 P&H fee applies for modem delivery. The Business Gateway is pre-configured, customer self-installed and supports mobile broadband backup for Internet telephony calls when an eligible Commander IP Voice service is bundled on the same account. Optional: The modem can be installed as part of a Valet Installation Service for an additional \$89.00. Please note that support is only available for Commander approved modems. For a list of approved modems, call Customer Service on 132 777.

STANDARD INSTALLATION REQUIREMENTS

Standard Installation is included with your plan and is provided to the first telephone point in your premises along with an NBN suitable modem. A 240 volt power supply is required and you must ensure such a power supply is available. In the event of a power outage, your services will not work unless you maintain a back-up battery. If you take up dedicated access service, you will not be able to move back to a copper service. Fibre services are provided to the Network Termination Device (NTD), you may need to undertake your own additional work to make other points in the Premises fibre-ready.
